Brooks Macdonald for Grayson

Thesis Asset Management has said its bond manager James Grayson is set to join the private client team at Brooks Macdonald after announcing his resignation last week.

Michael Lally, chief investment officer at Thesis, will now run Mr Grayson's Thesis Opti-

ma Bond fund. Tony Gammon, director, has been appointed co-manager. Mr Lally said Mr Grayson's departure would not affect the running of the fund.

A spokeswoman for Brooks Macdonald said Mr Grayson was not currently employed at the company.
